

FILOS VARIO

**Heads up!**

**It couldn't be simpler or more universal**

**FILOS VARIO - the clever outdoor light fitting**

 **SCHUCH**

# FILOS VARIO: ABSOLUTELY ECONOMICAL AND CUSTOMISABLE

Variability that gives you flexibility. FILOS VARIO with its variably adjustable luminous flux covers a wide range of applications, that usually requires several different types of light fittings. And the clever bit: This variability remains unchanged over the entire lifetime.

## ARGUMENTS THAT CONVINC

- 2 types – variable luminous flux from around 1,400 lm to 8,000 lm
- Tool-free adjustment of luminous flux using integrated switch or smartphone app (NFC), can be changed at any time
- Universal pole mounting system for standard pole diameters or brackets, Can be folded down without tools (side entry mounting / post top mounting)
- Extremely long service life (L90 > 100,000 h), maximum efficiency → maximum electricity cost savings
- Sustainable – tool-free component replacement
- Eco-friendly, no direct light emission into the night sky (ULOR = 0%)

## ALUMINIUM OR POLYESTER HOUSING: THE CHOICE IS YOURS

### DIE-CAST ALUMINIUM

#### ADVANTAGES

Particularly sustainable – GreenLine luminaires\*

Attractive price

Durable due to high corrosion resistance

### POLYESTER HOUSING

#### ADVANTAGES

Low weight

Unbeatable price / performance ratio

Painting in DB 702 possible

Series	Version	Connected load [W]	Luminous flux [lm]	Luminous efficacy [lm/W]
FILOS VARIO	L50	9 – 35	1,400 – 5,670	bis 181
	L80	16 – 50	2,840 – 8,370	bis 185

All values rounded, subject to further technical developments.

\* Focus on sustainable product design - fulfils all 13 SCHUCH sustainability criteria.
